**14<sup>th</sup> of November 2015**

**Terror attack in Paris  
Statement by the President of the IFEH**

On behalf of the International Federation of Environmental Health, I would like to extend our sympathies and deepest condolences to the people of France and those families directly impacted by the terror attacks which took place in Paris in the evening 13<sup>th</sup> of November. So far 129 innocent people have been confirmed killed and several hundreds have been injured of which close to 100 people are severely injured.

We are deeply saddened by the loss of life and devastation caused by these senseless acts. Truly, a sad day for France – and for the World as one. This is not just an attack on France but it is an attack on the whole free World.

We wish the people of France a speedy recovery from this tragedy and may justice always prevail.

**Henning I Hansen**  
President
