

Environmental Health Management Systems

Every member organisation and associated body should:

- a) Adopt a programme of action to encourage a central role for the public sector in the co-ordination of environmental policies in each member country.
- b) Ensure that the programme of action lays down the standards to be achieved and a timescale for their achievement.
- c) Maintain pressure to ensure that environmental policies are continuously monitored and reviewed as appropriate.
- d) Ensure that policies affecting environmental health have regard to best practical means.
- e) Attempt to co-ordinate locally, policies on the environment which have an international context.
- f) Undertake research into environmental conditions in their local sphere of operation.
- g) Work towards increasing public sector supervision of processes affecting the environment,
- h) Co-operate with other members and associated bodies of the Federation to assist in achieving these goals.
