

SAUDI ARABIA

World Environmental Health Day

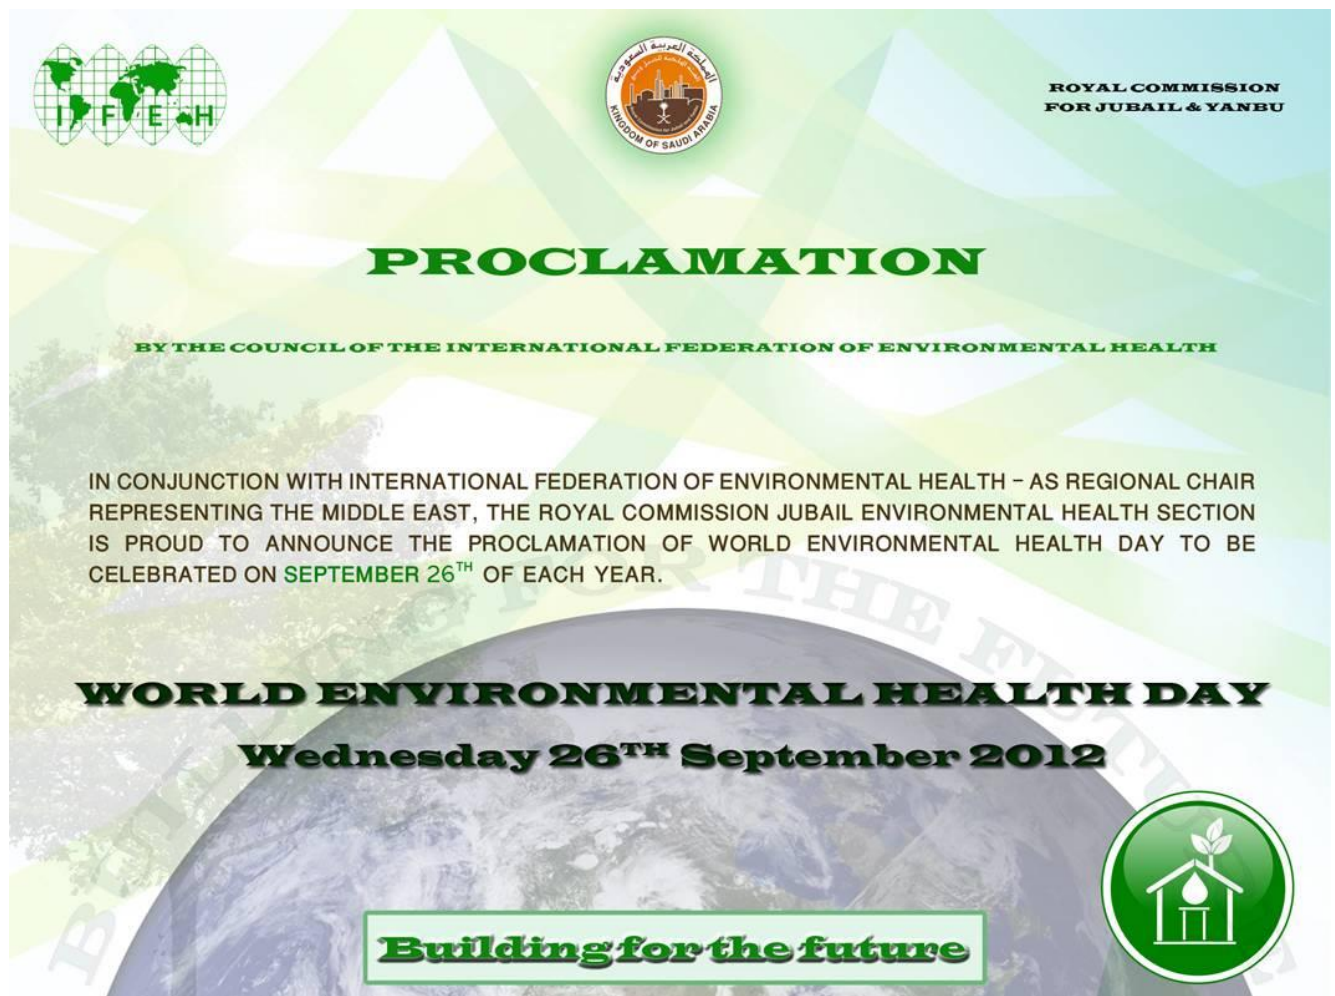

Dear all membership of the IFEH:

Congratulations on the celebration of the World Environmental Health Day. On this auspicious day we have promoted the day with announcements in both in English and Arabic, forwarded to all officials in the Government and some of the GCC countries. Special emphasis has been placed in promoting the World Environmental Health Day in the local schools to generate awareness in the student groups, the future of the country.

We hope to plan and conduct a bigger event in 2013, with environmental health activities involving the school children and generate awareness in the public through educational exhibits and campaigns.

Best Regards

Rasheed Ahmed. M.Ed. DAAS.FRSH.CPHI(C)
Environmental Health Supervisor
Royal Commission Jubilee
Jubilee Industrial City 31961
Saudi Arabia

The poster features a green and white geometric background with a globe at the bottom. It includes logos for IFEH, the Royal Commission for Jubail & Yanbu, and a house with a plant icon. The text is in green and black, announcing the World Environmental Health Day on September 26th, 2012, with the slogan 'Building for the future'.
