San Bernardino Tragedy Message by the President of the IFEH

On behalf of the International Federation of Environmental Health, I would like to extend our sympathies and deepest condolences to our colleagues in CEHA and NEHA and all those families directly impacted by the horrible event which took place in San Bernardino, CA, US, 2nd of December where 14 persons in all were killed and 21 persons were injured.

We are deeply saddened by the loss of life and devastation caused by these senseless acts. This time the crimes were directly targeted people who have dedicated their professional life to help and protect other people. We in the IFEH stand with our US colleagues in this time of sadness.

I encourage all IFEH members, the 9th of December, to join with our US colleagues observing a minute of silence in supporting the victims families and honouring those that have fallen.

We wish that all our friends in CEHA and NEHA and all affected people will get through this very sad chapter of life and again be able to see the light even if it seems very far away right now. Our thoughts are with you.

Henning I Hansen
President
