

IFEH President message

To:

Malawi Environmental Health Association,
Malawi

Disaster in Malawi – tropical cyclone Idai.

On behalf of the Board of Directors and the members of the International Federation of Environmental Health, we are saddened by the recent disaster in Malawi and the 5 days devastation of the tropical cyclone Idai.

We want to pay our deepest thoughts to the families who lost their homes and belongings. We are aware that over 1 million were affected by the storm and about 80,000 people were forced out of their homes. The torrential rains have made the situation worse.

We pray that none of our IFEH members or their families were victims of this horrific disaster.

We want to express our deepest thoughts to the families who lost their homes and all their belongings and pray that God gives them the courage and strength to deal with their tragic losses. We also pray that the Almighty God showers his richest blessings upon the families that were affected, and he gives them the courage and fortitude to deal with their loss.

Our thoughts and prayers are with the people of Malawi and pray that they can overcome this disaster and move on with their lives.

GOD BE WITH THE COMMUNITY OF MALAWI.

Dr. Selva Mudaly

President – International Federation of Environmental Health
